

PERSONAL TRACKER TAG

Peace of mind
for your customers

An IoT Solution

Help your customers worry less about their loved ones

Xpand's Personal Tracker Tag is an easy to use, accurate GPS tracker for almost any situation where your customers would need to keep track of the people they love. With an added voice communication feature, the tracker provides greater convenience, allowing calls to be made in urgent situations.

The Personal Tracker Tag is ideal for keeping track of young children, aging parents as well as travellers and pilgrims.
